

COVID-19 Prepare Together

In case you must stay home

Store two weeks' supply of essentials (food, soap, detergent, toothpaste, bath tissue and cleaning supplies)

Secure 30-days extra of prescription medication

In case of schedule changes

Plan for extended school or child care closures

Speak with neighbors about their plans and support one another

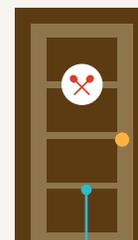

In case someone in your home is unwell

Identify who may be at greater risk, such as older adults and people with severe chronic illnesses

Assemble emergency contact list that includes healthcare providers

Designate a room in your house that can be used for isolation
