

COVID-19

KILL CORONAVIRUS IN YOUR HOME WITH BLEACH OR ALCOHOL

What you need

BLEACH and/or
ALCOHOL (70%)

DIPOSABLE GLOVES or
REUSABLE GLOVES
If reusing gloves, use only for
COVID-19 cleaning

SPRAY BOTTLE or
BUCKET to mix solution

WATER
(room temperature)

Important information

- Open window when cleaning

- First wipe off dirt you can see

- If using alcohol instead of bleach,
use 70% alcohol

- Do NOT use bleach on electronic devices

- Clean hands with soap and water for 20
seconds after removing gloves

- People with asthma should avoid area where
bleach is used

- KEEP BLEACH AND CLEANING ITEMS AWAY
FROM CHILDREN AND PETS

How to prepare and use bleach solution

DIRECTIONS

Carefully use bleach by diluting (weakening) it
with room temperature water.

- Add 5 tablespoons (1/3 cup) of bleach to
1 gallon (4 liters) of room temperature water
OR
- Add 4 teaspoons of bleach to 1 quart (about 1
liter) of room temperature water

PRECAUTIONS

- Do not mix bleach and chemical products.
- Never eat, drink, or breathe in bleach products. Do not apply
them directly to the skin.
- Bleach solution should be in contact with surface being
cleaned for at least 1 minute, then rinse with water and allow
to air dry.
- Bleach solutions will be effective for disinfection for up to 24
hours.
