## **DOH, UH Release Infographic Report and Data Dashboard on COVID-19 Support Services**

DOH and UH unveiled a new infographic report and dashboard this week to track COVID-19 isolation and quarantine data on the island of O‘ahu. Health Director Dr. Libby Char said, “Isolation and quarantine are critical components of the COVID-19 control strategy. Having these services readily available helps individuals who test positive or who have been in close contact with those infected, adhere to public health guidance and prevent community exposure.”

The new dashboard shows that since August 2020:

- More than 4,100 requests were made for isolation and quarantine, COVID-19 testing, food assistance or other services.
- More than 3,900 individuals affected by the COVID-19 pandemic were provided with isolation and quarantine services.
- More than 1,700 individuals could not safely isolate or be quarantined in their own homes often due to a lack of space, and as a result, received isolation and quarantine placement.

The dashboard was made possible through the Behavioral Health and Homelessness Statewide Unified Response Group (BHHSURG), a collective of state and county agencies and other organizations that formed in August 2020, to collaboratively address O‘ahu’s consistently high numbers of COVID-19 cases in a single day. The group began to identify the services needed in the community and tracked the services that were provided.

## **DOH Partners with Pharmacies to Vaccinate More Kupuna**

To continue the momentum now underway to vaccinate residents and caregivers of small residential care homes throughout the state, DOH is partnering with a number of pharmacies to conduct drive-thru vaccination events or in-home vaccinations. Health Director Dr. Libby Char said, “This is another major step forward in the implementation of our state’s vaccination plan. In progress for vaccinations are residents and staff of larger long-term care facilities, such as assisted living communities. We will then turn our attention to residential care homes and community care foster family homes.”

There are different types of care homes. DOH’s Office of Health Care Assurance licenses and inspects more than 1,200 community care foster family homes, about 445 adult residential care homes, and nearly 50 developmental disabilities domiciliary homes. The residents of these care homes may be seniors or those with underlying health conditions. The partnering pharmacies throughout the state include: ElixRx Pharmacy, 5 Minute Pharmacy, Foodland Pharmacy, KTA Pharmacy, Pharmacare Hawaii, The Queen’s Medical Center Pharmacy, and Times Pharmacy.

The care homes have been divided by zip code and the pharmacies have been assigned to the care homes to schedule vaccine appointments for their residents and caregiver staff members.

**Inmate and Staff Testing Continues**

The Halawa Correctional Facility (HCF) reports two (2) inmate results were negative, and 37 more inmates have recovered. That drops the total active inmate cases to 73 and increases total recoveries to 470. There are six (6) hospitalized HCF inmates. An additional HCF staff member has also recovered. The O’ahu Community Correctional Center (OCCC) reports 24 negative inmate results. There was also one (1) OCCC staff recovery.
