Hawai'i Shares Best Cluster Management Practices with the CDC

The Centers for Disease Control and Prevention (CDC) provides guidance that has helped Hawai'i to effectively respond to the COVID-19 pandemic. This week, Hawai'i returns the favor by providing the CDC with lessons learned from a cluster last year. It was traced to three fitness centers highlighted in a scientific paper, published today, in the CDC's Morbidity and Mortality Weekly Report (MMWR).

The investigation was performed by a team led by Dr. Sarah Kemble, acting state epidemiologist, who served as the principal investigator and lead researcher.

"This publication is an acknowledgement of the caliber of work being done by Hawai'i's public health team," said Health Director Dr. Elizabeth Char. "It's an honor to have the opportunity to contribute to the collective body of knowledge for other states to use."

At the time of the outbreak, face masks were not required in fitness centers. However, as a result of work done by the DOH last July, Honolulu began requiring everyone to wear face coverings in fitness facilities, including during exercise. Department of Public Safety:

Statewide Inmate Testing Continues

COVID-19 testing is continuously being conducted statewide at all facilities. The total active positive inmate cases at the Maui Community Correctional Center remain unchanged at 26. All other correctional facility inmate populations remain clear of the virus. The O'ahu Community Correctional Center (OCCC) reported 17 negative inmate test results and the Halawa Correctional Facility reported four (4) negative staff results.
