Halawa Inmate Death Classified COVID-19-related

The death of a male Halawa Correctional Facility (HCF) inmate, between 50 to 60-years old, is being classified by DOH as a COVID-19-related death. No additional information is being provided to protect individual medical privacy. This is the third death of an inmate classified by medical authorities as COVID-19-related. The first two (2) deaths, reported in November 2020 and January 2021, were Saguaro Correctional Center inmates.

HCF currently has just three (3) active positive inmate cases, two (2) of which are in medical isolation at the facility and one (1) hospitalized. There was one (1) negative HCF inmate result received today. The O'ahu Community Correctional Center reported 21 negative inmate test results. Department of Land and Natural Resources:

Commercial Vessel Passengers and Crew Must Wear Masks Onboard

DLNR is sending a reminder that commercial vessels, regardless of size, are required to ensure that all their passengers and crew wear masks to prevent the spread of COVID-19. This follows the recent Presidential Executive Order and Centers for Disease Control and Prevention's requirement for wearing masks on all domestic modes of public transportation on both land and sea. The only exemptions to this are private conveyances, that aren't used for commercial purposes, as well as certain military operations. To view more:
