

Wehwehki Dahme Mehlel

Re idawehn anahn akan koaros ni arail wiahda wini en kalikehdi mwarahkpeseng en COVID-19.

Wiepen wini en kalikehdi mwarahkpeseng en COVID-19 pweida pwehki pwihen tohn science men, koapwoarment, oh aramas teikan kohpene pwehn wiahda. Koapwoarment en federal koasoandi mwomwen Emergency Use Authorization [Mweimwei Pwehki Emersensi] nan 2004 pwehn kaunopada wiahda doken silasil kan ma mie soang en souumwhau sakanakan ieu duwehete met.

Lipwe suwed kan inenen sohte mwahl.

Sisdem en wadek uwen mwahl en lipwe suwed kan uhdahn mwahu. Doken silasil rar kihdahr nan U.S. Lipwe suwed kan inenen sohte mwahl oh ni re wiawi mie sidem mwahu en wehwehki dahme wiawi.

Uwen ahmw kak souwahukihda COVID-19 ma ke sohte ale doken silasil laud sang uwen mwahl ma ke ale.

Doken silasil kan sohte wekidala ahmw DNA.

Wini en kalikehdi mwarahkpeseng en COVID-19 sohte kawekila de wiahda mwomwen tohrohr en ahmw DNA. Doken silasil en Pfizer, Moderna oh Johnson & Johnson kihong ahmw cell kan ia mwomwen re kak kalikehdi soumwahu en COVID-19. Ahpw, wini sohte pidolong loalen cell, iei wasa me DNA kin mihmi ie. Ni wini kihda padahk pwukat, kisin pali en wini pahn kohsang paliwaromwen.

Mwahu en ale doken silasil?

Doken silasil en COVID-19 uhdahn dihr nan Hawai'i. Ma ke anahne sawas en diarada doken silasil:

Kilang HawaiiCOVID19.com/Vaccine

Kahlih **(808) 586-8332** de kahlih ni sohte pweipwei ni **(833) 711-0645**
Mie sounkawehwe men ma mie anahne peh

COVID-19
Doken
Silasil Kan
Sewehse Komwi
oh Amwi Peneinei

Padahk sang: U.S. Centers for Disease Control & Prevention, U.S. Food and Drug Administration oh Hawai'i State Department of Health

Doken silasil duwehte mehn up kan pwe ke sohte soumawahuda.

Doken silasil kin sewese en paliwaromw ah mwomwen powehdi soumwhahu pwe e kak kamehla COVID-19 nan paliwaromw ma ke tuhwong emen me soumwhukiher.

Re katikitik uwen mwahl ahmw kak soumwhukiha COVID-19 oh pil uwen sakanakan de mwahl en mehla pwehki COVID-19.

U.S. Food and Drug Administration koasoandi me doken silasil en COVID-19 kak kihpeseng pwehki ansou emersensi ieu. Tohnwini kan oh soun science kan dawih oh pwungki wini pwukat.

Soang en wini pwukat koaros idawehn mwomwe duwehte mwohn re kihpeseng. Re pil idawehn mwomwen wini en kalikehdi soang en soumwhahu teikan me kihpesengehr nan mahso. Wini pwukat koaros kapwaiada dehs nan pwihn en aramas lapala ieu (laud sang aramas nen) me mehn wasa koaros. Doken silasil sapw kei kihpesengehr nan United State ni mwomwen mwahu oh pwung.

Mie soang en wini en kalikehdi mwarahkpeseng en COVID-19 siluh me ke kak ale nan United States. Iral adahniki doken silasil en Pfizer-BioNTech, Moderna, oh Johnson & Johnson. Soang en wini pwukat ekis weksang me teikan, apw re koaros mwahu oh kin sewese aramas.

Aramas anahne ale dok riau en doken silasil en Pfizer-BioNTech oh Moderna kan. Ke anahne dok ehute ma ke ale doken silasil en Johnson & Johnson.

Ihs Me Kak Ale Doken Silasil?

Aramas sounpar 12 de laud sang kak ale doken silasil en Pfizer-BioNTech. Aramas sounpar 18 de laud sang kak ale doken silasil en Moderna de Johnson & Johnson. Mie keseu kan me wiawi ansou wet pwehn wehwehki ma aramas pwulopwul sang sounpar pwukat pil kak ale. Aramas pwulopwul sang sounpar 18 anahne en arail pahma oh nohno kan arail mweimwei pwehn ale.

Ma ke liseian de kedihdi, ke kak ale doken silasil. Sohte mehn kadehde me kaselehda me doken silasil en COVID-19 kahreda ahpwahl en liseian.

Pil, sohte mehn kadehde me kaselehda me doken silasil en COVID-19 kahreda ahpwahl en liseienda nan lih de ohl.

*"I wia dahme / anahne
oh ke pil anahne wia
soangohte. Ale ahmw
doken silasil rahnet!"*

Dahme pahn wiawi...

Mwohn Ke Ale Doken Silasil

Doken silasil en COVID-19 sohte pweipwei. Ke sohte anahne insurance pwehn ale doken silasil.

Wahdo ahmw doaropwe en insurance ma ke nainiki, ahpw sohte anahne peh ma sohte ahmw insurance.

Ke pil SOHTE anahne nempe en Social Security de pil ehu mwomwen doaropwe en ihs kowe sang koapwoarment.

Ni Ahmw Ale Doken Silasil

Ni ahmw pwarada wasao re pahn peki kowe kanekehla kisin doaropwe ieu pid ahmw roson.

Ke pil pahn ale doaropwe ieu me kaselehda me ke ale doken silasil kan. Inenen kesempwahl me ke kolokol doaropwe wet.

Ke pahn anahne mih nan wasao minit 15-30 pwe re kak tehk mwahu me ke sohte keiheng. Keiheng uhdahn sohte mwahl.

Mwurin Ahmw Ale Doken Silasil

Lipwen doken silasil kak wiawi mwurin ahmw ale doken silasil. Lipwe mwahl iangahki medek en peh, karakar, oh pwang nan awa 72 mwuri.

Lipwe pwukat wehwehki me doken silasil pweida oh songsong kaunopada paliwaromwen.

Rahn 14 mwurin ahmw ale imwen en doken silasil kan ke alehda doken silasil ni pwon. Soun science kan songsong wehweki uwen reirei wini wet pahn doadoahk nan paliwar.
