Updated Tuesday, March 30, 2021

\*Includes all cases diagnosed in the state (residents, non-residents, and military); Excludes residents diagnosed out-of-state. Data as of 11:59 pm Sunday, March 28, 2021

## **Department of Public Safety:** **Statewide Inmate Testing Continues**

COVID-19 testing is continuously being conducted statewide at all facilities. The Women's Community Correctional Center (WCCC) reports 202 negative test results from the facility-wide testing conducted on Monday by WCCC health care staff and the Hawai'i National Guard. There was one (1) inmate who declined testing and was moved into medical isolation as a precaution. The facility enacted its pandemic protocol to quarantine the facility and suspend inmate movement on Friday after two (2) employees reported positive test results. The inmate movement suspension remains in effect today because all WCCC inmates are still under medical observation. If all continues to go well, internal movement is expected to resume within the week and movement outside the facility possibly next week. No WCCC inmates have reported symptoms.

WCCC Warden Eric Tanaka said, "I want to thank DOH for implementing immediate contact tracing and the Hawai'i National Guard for coming into the facility on Monday to conduct all inmate testing in one day. I also want to thank my health care and security staff for quickly putting our pandemic plan in action. We couldn't have done this so fast without the efficient teamwork of all involved."

The Maui Community Correctional Center (MCCC) reports three (3) inmate recoveries which drops the active positive inmate total to five (5). There are no MCCC inmates in the hospital. The one (1) MCCC employee who was out due to COVID has been cleared to return to work. The O'ahu Community Correctional center reports 31 negative inmate test result. ## **Hawai'i Tourism Authority:** **HTA Releases Results from Special Visitor COVID-19 Study**

HTA released the results of a special tracking study, which surveyed visitors from the U.S. mainland who visited Hawai'i from Feb. 12-28, 2021, to gauge their experience with Hawai'i's Safe Travels program and overall trip satisfaction. This comes two months after the first study was done. In this latest study, the vast majority of visitors (82%), rated their trip as "Excellent," and 92% said their trip either exceeded or met their expectations. The survey also asked visitors how often they followed the COVID-19 guidelines, and 90% of respondents said they adhered to mask mandates all or most of the time, 83% said they practiced social distancing all or most of the time, and 69% said they avoided gatherings all or most of the time. The press release and complete survey results are available on HTA's website:
